SUMMARY:

Passionate frontend developer with BA background and 3+ years of professional experience in backend operations. Recently completed comprehensive web development training covering React.js, JavaScript, HTML/CSS, and modern frameworks. Eager to bring strong organizational skills, attention to detail, and technical problem-solving abilities to a collaborative development team. Committed to continuous learning and contributing to innovative web solutions.

WORK EXPERIENCE:

Prime Packers India

Backend Executive | 20 June, 2021 – 10 August, 2024

- Managed daily backend operations including customer communication via phone/email; resolved 50+ client inquiries with 95% satisfaction rate
- Updated India Mart product listings and maintained inventory database in Google Sheets; organized 200+ product records improving accessibility by 40%
- Assisted clients with in-office product demonstrations; provided detailed product specifications and technical information to support lead generation and sales conversion
- Maintained detailed client interaction records and follow-up documentation; managed CRM-related tasks to strengthen ongoing business relationships

RELEVANT PROJECTS:

- Mindfulness – Meditation Website**
Built with HTML5, CSS3, JavaScript ES6+; features smooth animations, interactive session player with play/pause controls, and fully responsive design with mobile-first approach, tested on multiple devices
- Foodbook – Recipe Discovery website**
A responsive recipe discovery application built with React.js and Bootstrap using TheMealDB API. Users can search, filter, and view detailed recipes with real-time ingredient and video integration. Modern UI/UX, loading/error handling, and mobile-first design included.
- Portfolio Website**
Responsive portfolio built with React.js and Tailwind CSS; features React Router navigation across multiple pages, custom CSS animations for hover effects, smooth scrolling, and optimized Netlify deployment.
